

Editor's Note: This represents the last of a series of bi-weekly updates focusing on topics relating to Curriculum Reform. This particular edition provides a brief introduction to the Class of 2015 & highlights some key dates associated with the first phase of the new curriculum.

INTRODUCING.....THE CLASS OF 2015!

The Class of 2015 represents the 36th class in the history of the F. Edward Hébert School of Medicine;

The Class of 2015 is comprised of 52 women (30%) & 119 men (70%); it also includes 2 MD-PhD students;

65% (112 students) of the class have had no prior military experience; of the 35% (59 students) who do, 13 were recent (2011) graduates of a Service Academy and 13 were recent graduates of a ROTC program;

While Biology (26%), Biochemistry (9%) and Chemistry (6%) were the most common undergraduate majors, the Class of '15 includes students who majored in business, mathematics, neuroscience, history, religion, engineering and physics!

Twenty members of the Class of '15 possess master's degrees.
